FAQs:

How is this festival different from regularly programmed plays?

The first weekend of the festival will include additional programming for festival goers – including music, art and dance. The festival will also host multiple discussion panels and interactive feedback opportunities for audience and artists.

How can I see the plays?

There are three ways:

- Festival Day Pass (either Saturday or Sunday) gives you access to all programming for a day long festival experience.
- Weekday Performances: see two of the three one-acts.
- Encore Weekend: individual tickets available for all showings.
